280	34	230.59	123.53	321.18	238.82	214.12
293	35	234.4	125.57	326.49	242.77	217.66
307	36	238.78	127.92	332.58	247.31	221.72
321	37	242.92	130.14	338.35	251.59	225.57
335	38	246.84	132.24	343.82	255.66	229.21
349	39	250.56	134.23	349	259.51	232.67

Calculations are done as follows:
 $(x / y) * (y * h) \Leftrightarrow x * h$

where
 x is the actual effort in points
 y is a task size
 h is hours per point

So if I did 30 points of work then:

30 tasks of size 1	= 30 (1 * 0.5)	= 15
15 tasks of size 2	= 15 (2 * 0.5)	= 15
10 tasks of size 3	= 10 (3 * 0.5)	= 15
7.5 tasks of size 4	= 7.5 (4 * 0.5)	= 15
6 tasks of size 5	= 6 (5 * 1)	= 30
5 tasks of size 6	= 5 (6 * 1)	= 30
3 tasks of size 10	= 3 (10 * 1.5)	= 45
2 tasks of size 15	= 2 (15 * 2)	= 60
1 task of size 30	= 1 (30^1.598)	= 229 (more than 2 weeks)
