Sprint Backlog, Iteration #6

Group: Out of Context

Context: TSE

Date: 27-05-2016

User Story	Task	Member responsible for the task	Task Assigned To	Estimated Effort Per task per person (in half hours)	Priority (A-E)
As a user I want the event positions to be logged (semantic data) (If possible)	Do research on event positions	Laurens	Cas, Lars, Thomas	3	A
	Create a semantic logger for mouse clicks	Thomas	Cas	6	A
	Test the semantic logger for mouse clicks	Thomas	Cas	3	B
	Create a semantic logger for keystrokes	Laurens	Lars	10	D
	Test the semantic logger for keystrokes	Laurens	Lars	4	E
	Create a semantic logger for mouse enter and leave	Thomas	Cas	5	D
	Test the semantic logger for mouse enter and leave	Thomas	Cas	4	E
	Create a semantic logger for scroll in and out of view	Laurens	Arthur, Lars	10	B
	Test the semantic logger for scroll in and out of view	Laurens	Arthur	9	C
As a developer, I want to know how to use the tool	Add sequence diagrams/flow charts of how the tools start up and the user interactions with the tool	Cas	Thomas	10	A
As a user, I want an icon for the tool in the chrome extension's page	Adding icon for the project	Arthur	Lars	2	C
As a user, I want some more explanation about what is being tracked	Add demo's to the settings page about what is being tracked	Cas	Lars, Thomas	10	B
Meeting interaction design	Preparing the meeting	Cas	Thomas	6	B
	Attending the meeting	Thomas	Everyone	2	A
Meeting with Product Owner	Creating use cases for the product demo	Thomas	Everyone	4	A
As a user, I want to know when a pull request was visible	Research page visibility	Arthur	Laurens	2	B
	Implement page visibility tracker	Arthur	Laurens	20	B
	Test page visibility tracker	Arthur	Laurens	8	B
As a user, I want to know the current position of the viewport relative to the page origin.	Implement scrolling tracker	Laurens	Arthur, Cas	7	A
	Test scrolling tracker	Laurens	Arthur, Cas	7	B

Names	Estimated Total Effort (In Hours)
Lars	22,5
Thomas	20,5
Cas	22
Arthur	21,5
Laurens	21,5
